[PROPERTIES]

Residues: Gly124~Leu363 Tags: Two N-terminal Tags, His-tag and GST-tag Accession: O88310 Host: *E. coli* Subcellular Location: Membrane; Single-pass type I membrane protein. Purity: >90% Endotoxin Level: <1.0EU per 1µg (determined by the LAL method). Formulation: Supplied as Iyophilized form in 10mM PBS, pH7.4, containing 1mM DTT, 5% trehalose,

0.01% sarcosyl and preservative. **Predicted isoelectric point:** 5.9

Predicted Molecular Mass: 58.8kDa

Applications: SDS-PAGE; WB; ELISA; IP.

(May be suitable for use in other assays to be determined by the end user.)

[<u>USAGE</u>]

Reconstitute in sterile ddH₂O.

15% SDS-PAGE

C <u>Cloud-Clone Corp</u>.

[STORAGE AND STABILITY]

Storage: Avoid repeated freeze/thaw cycles.

Store at 2-8°C for one month.

Aliquot and store at -80°C for 12 months.

Stability Test: The thermal stability is described by the loss rate of the target protein. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. (Referring from China Biological Products Standard, which was calculated by the Arrhenius equation.) The loss of this protein is less than 5% within the expiration date under appropriate storage condition.
